

ENGINEERING SERVICES NETWORK, INC.
JOB POSTING NOTICE:

Job Posting: January 22, 2010
Closing Date: Until Filled
JOB TITLE: Senior Systems Analyst
JOB LOCATION: Hines, IL
REQUISITION NUMBER: 470

PRINCIPAL DUTIES/RESPONSIBILITIES:

Primary Duties Include:

- Provides technical guidance for directing and monitoring information systems operations.
- Implements machine modifications to increase the capacity of the system.
- Directs compilation of records and reports concerning production, machine malfunctioning and maintenance.

Additional Duties Include:

Analyzes and evaluates user requirements by coordinating with the user to define the problem, data availability, report requirements and system design problems. Defines systems objectives and prepares system design specifications to meet user requirements and satisfy interface problems. Analyzes alternate means of deriving input data to select the most accurate, feasible and economical methods. Defines input and output file specifications including file organization. Defines controls, conversion procedures and system implementation plans including user training and orientation. May provide work leadership to lower level employees. Excludes those with full supervisory responsibilities.

EDUCATION AND EXPERIENCE:

Bachelors Degree in Computer Science, Management Information Systems, a related field or equivalent experience. Five years of systems analysis experience.

SKILLS AND ABILITIES:

Experience with FileNet (certified developers and administrators and optimally have a FileNet Advantage Provider Certification), Oracle Certifications and/or Training equivalent. Other key knowledge areas include; Capture developer, ASP developer, ActivePDF, Adobe Acrobat Distiller, Infragistics, Lead Tools, RoboHelp, Optus FacSys Desktop, Macromedia Authorware, Kofax Adrenaline Utilities, Dell OpenManage Management Server, UNIX Admin (SUN), Arcserve 2000 Backup Utilities and Agents, HP Surestore Library Tools and Management, QLogic Hardware Management Utilities, Windows NT / 2000 system administration, and Windows Networking.

Applicants must be able to obtain a Background Investigation (BI)/High Risk through the Department of Veteran Affairs Security and Investigations Center (SIC).

The above job description is not intended to be, nor should it be construed as, exhaustive of all responsibilities, skills, efforts, or working conditions associated with this job.
